

Forum for Former International Professionals of Multilateral Organizations

PRESS STATEMENT

We, members of FIPMO (Forum of former International Professionals of Multilateral Organizations), align ourselves with Dr. Govinda KC and his movement to improve the health sector in Nepal, particularly medical education. We are disheartened that no leader of major political parties has come forward with a commitment of honesty in implementing earlier agreements of Nepal Government with Dr. KC.

We would like to appeal to the integrity of the leaders of the major political parties, especially those who have already been Prime Minister, to assure Dr. KC that they or their parties do not have any personal or party interest to benefit from the medical education of future generation of Nepali.

14 August 2017

Dr. Suresh R. Sharma, FCCA
Chairman, Executive Committee
